The Lucaea Collection

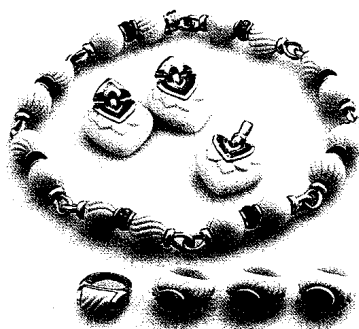

The particular texture of the Lucaea collection is formed by the elaborate intersection of minute geometrical shapes which make them exceptionally supple and wearable.

Choker and watch in white gold with the contrasting beauty of sparkling diamonds and onyx.

The Monete Antiche Collection

The long standing tradition of setting ancient coins in jewellery was resumed by Bulgari in the 1970's, a trend which helped revitalize the family's Hellenic origins, grafted in Rome. Ancient coins, spanning from the 5th century BC to the 20th Century are treated by Bulgari with the same reverence as gems. Necklaces, earrings and rings in yellow gold with silver and bronze coins.

The Chandra Collection

Chandra, "moon" in Sanskrit, is a line created with translucent, white, fine and shock-resistant porcelain, worked in rounded forms with embossed designs.

Necklace, earrings, pendant and rings in yellow gold and porcelain with Amethyst, pink and green Tourmaline, blue Topaz and Peridot.

Bulgari-Bulgari

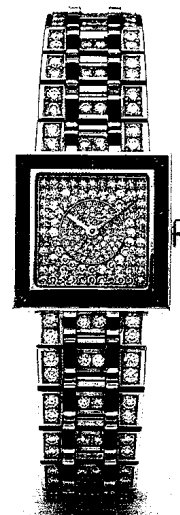

A work of art, this timepiece with alligator leather strap, white gold case and white gold hook buckle has become a Bulgari classic. Comes with a Moon Phase or with a white gold skeleton case and automatic movement.

The Celtaura Collection

The Celtaura collection is inspired by the style of some of the Celtic bronze pieces which date from the 3rd century BC. The alternating use of deep grooves and plays of light and colour enhance the smooth form of the graduated modules.
