

# Track-A-Life Programme Introductory Profile

Known as Bibi ? Birthday – 30<sup>th</sup> December 1993 ? Favourite Colour – Blue  
Favourite Food – Nasi Ayam ? Hobbies – Swimming

## Background

Bibi is in Primary 5 this year and she lives in a one-room flat at Henderson with her parents and 4 siblings. Last year, she hardly attended school because she did not have money to go to school in Woodlands. We have now transferred her to a school near her home and for the past 6 months she has been under our care.

Bibi tends to speak very little but we are sure that with encouragement and guidance she will become a more confident person. We have observed her to be a kind and gentle person who can also be very determined in achieving what she wants.

## Challenges She Faces

- Her attendance at school needs to be improved
- She has to build up her self-confidence and self-esteem

## Our Plan for Bibi

- To help her become more confident and more comfortable interacting with people
- To help her catch up with her peers in school and to ensure she attends class regularly.
