

## Track-A-Life Programme Introductory Profile

Known as Farhana ? Birthday – 20<sup>th</sup> November 1995 ? Favourite Colour – Red  
Favourite Food – Nasi Ayam ? Hobbies – Swimming, Dancing, Fishing

### Background

Farhana came to us in December 2003 and struck us a fiercely independent girl despite being very small for her age. Chilli padi came to mind as we observed her holding her own against the bigger and older boys.

Farhana lives with her mother and 2 other siblings. Her mother being the sole-breadwinner, found it difficult to ensure that Farhana attends school regularly. However, Farhana's school attendance has now improved.

Being energetic and fun loving, Farhana shines during soccer training and outdoor activities. We hope to further develop her athletic abilities so that she can excel in sports at school.

### Challenges She Faces

- To be more consistent in her attendance at school
- To revive her interest in studies
- To help her handle her temper better

### Our Plan for Farhana

- Our immediate plan for Farhana is to get her back to school on a regular basis and to assist her in handling her temper.
